Due soluzioni in una: cappa e purificatore si trasformano in un elemento di arredo dal design originale, versatile e impattante che tratta l’aria nel modo migliore. Prima aspira fumi, odori e allergeni, poi la restituisce pulita e purificata. Le due funzioni sono attivabili in modo indipendente, per una massima versatilità di utilizzo.

Two solutions in one: a hood and air purifier are transformed into an original, versatile and striking piece of decor that offers optimal air treatment. First, it draws in smoke, odors, and allergens, and then it delivers clean and purified air. Each function can be used independently, so it is incredibly versatile.

Trattiamo bene l'aria. Air treated efficiently.

La cappa e il purificatore nello stesso prodotto.

The 2-in-1 kitchen hood and air purifier.

La qualità dell'aria è un tema di grande attualità, di fondamentale importanza per la nostra salute. Riguarda l'ambiente in cui viviamo, anche quello domestico: un'adeguata ventilazione, frequenti ricambi d'aria e un efficace sistema di aspirazione di fumi e vapori in cucina costituiscono le premesse per migliorare la qualità dell'aria nei nostri spazi di tutti i giorni.

Elica ha progettato soluzioni capaci di valorizzare il design di ogni cucina garantendo sistemi di aspirazioni ad alte prestazioni e a basso impatto ambientale, facili da utilizzare e tecnologicamente all'avanguardia.

Air quality is a highly topical issue, crucial for our health. It impacts the environment we live in, including our homes. Proper ventilation, regular air changes, and an effective system for extracting kitchen fumes and vapours are essential for improving air quality in our everyday living spaces.

Elica has designed solutions able of elevating the design of every kitchen in addition to providing high-performance extraction systems that are environmentally friendly, easy to use, and technologically advanced.

Elica Air Pure.

Elica ha ideato Ikona Maxxi Pure, una cappa multifunzione progettata per migliorare la qualità dell'aria grazie all'innovativo Combo Pure Filter: un combinato di Hepa e carbone che cattura gli agenti inquinanti liberando l'aria da odori, allergeni (come polvere, peli di animali, pollini, muffe), residui prodotti da detergenti per la pulizia della casa, pitture e rivestimenti. Questa tecnologia è in grado di purificare completamente l'aria di un ambiente di 30 mq in soli 20 minuti, nel massimo silenzio.

Elica Air Pure.

Introducing Ikona Maxxi Pure, a multifunctional hood designed by Elica to improve air quality thanks to the innovative Combo Pure Filter: a combined HEPA-charcoal filter that captures pollutants, gets rid of odours, allergens (e.g. dust, pet hair, pollen, mould), residues from household cleaning products, paints, and coatings. This technology has the power to completely purify the air in a 30 sqm room in just 20 minutes, quiet as a mouse.

La personalità del design di questa cappa è l'elemento estetico distintivo, da scegliere nella finitura in vetro trasparente o quella in vetro nero. La gestione delle funzioni avviene facilmente con un telecomando smart, per regolare luminosità e potenza aspirante, che garantisce sempre una riduzione efficace della rumorosità.

The distinctive design of this hood reflects its individuality. It is available in transparent glass or black glass finishes. A smart remote control makes it easy to adjust features such as brightness and extraction power while ensuring very reduced noise levels.

Leggera e di impatto, questa cappa sospesa valorizza con semplicità ogni spazio cucina. È dotata di una funzione per lo spegnimento ritardato (così da eliminare fumi e cattivi odori anche dopo aver finito di cucinare); i suoi filtri anti-odore possono durare fino a 3 anni, riducendo l’impatto ambientale.

Visually striking and airy, the simplicity of this suspended hood complements any kitchen space. It is equipped with a delay shut-off feature (to remove lingering fumes and odours after you are done cooking); its odour filters can last up to 3 years, reducing environmental impact.

Bella e possibile.
Una cappa sospesa con aspirazione perimetrale performante e silenziosa. Un lampadario full led che arreda il vostro spazio cooking con personalità. Finiture in acciaio inox lucido, nero o bianco effetto soft touch. Alta qualità dell’aria che viene aspirata, filtrata e reimpressa nell’ambiente più pura e salubre. Filtri a lunga durata. E i comandi? Il telecomando vi consente un completo controllo a distanza, oppure potete gestire la cappa attraverso i tasti a sfioramento nascosti nel bordo. Il modello è disponibile nella versione sospesa oppure a parete, installabile grazie a un’apposita applique.

Beautiful and possible.
An island hood with a silent and efficient perimeter extraction system. A fully LED-lit chandelier that makes your cooking space unique. Available in polished stainless steel, black or white with a soft-touch finish. Provides high quality air as it extracts, filters and recirculates it into the room thus ensuring cleaner and healthier air. Long life filters. What about the controls? This hood is designed to work with a remote control, or by using the touch keys concealed under the edge of the kitchen hood. The model comes in two versions: island or wall-mounted, very easy to install with a special mounting bracket.

Acciaio inox, nero effetto soft touch + vetro nero, effetto ghisa, effetto ghisa + rivestibile
Stainless steel, black soft touch effect + black glass, cast iron effect, cast iron effect + coverable

L'integrazione estetica di questa cappa con lo stile del vostro spazio cooking è massima grazie alle finiture nero, acciaio inox, cast iron 'effetto ghisa'. Se volete, potete anche rivestirla con lo stesso materiale del top della vostra cucina, per un look omogeneo e personalizzato. Anche il comfort di utilizzo è pensato per semplificarvi la vita, consentendovi di regolare l'intensità della luce e la gestione del flusso d'aria. Questa cappa è dotata di connessione Wi- Fi che le permette di dialogare con voi da remoto. E come per magia, scompare completamente quando è spenta.

This hood is designed to blend seamlessly with your cooking space, thanks to its black finishes, stainless steel, and cast-iron effect. Additionally, you have the option to clad it with the same material as your kitchen top for a cohesive and custom look. User comfort is also designed to simplify your life, allowing you to adjust light intensity and manage the air flow. This kitchen hood is equipped with a Wi-Fi connectivity, so it can communicate with you via remote. And just like magic, it completely disappears when turned off.

Essenziale e minimalista.

Getup è un progetto che conferisce valore estetico e funzionale a ogni cucina, assicurando il massimo comfort nel trattamento dell’aria e nell’utilizzo. Get up si integra perfettamente in ogni stile di arredo garantendo una rimozione eccezionale di fumi, vapori e odori di cottura.

Essential and minimalist design.

Getup design adds aesthetics and functional value to any kitchen, while providing maximum comfort in air treatment and use. Getup perfectly blends in with any furnishing style, delivering outstanding performance in the extraction of cooking fumes, vapours and odours.

Installazione in libertà.

Getup si inserisce con discrezione in ogni tipo di cucina, lasciando la massima libertà di installazione. Occupa uno spazio minimo all’interno del mobile, grazie alle dimensioni contenute e alla posizione del gruppo aspirante (che consente di avere cassetti più profondi).

Il motore può essere montato a bordo e su entrambi i lati del prodotto, con possibilità di ruotare l’uscita nelle quattro direzioni. La stessa unità di aspirazione può essere anche remotizzata (fino a 3 mt) liberando l’ingombro all’interno del mobile e mantenendo performance efficaci e massima silenziosità.

Freedom of installation.

Getup seamlessly melds into any type of kitchen, allowing maximum freedom in its installation. It leaves plenty of free space into the cabinet, thanks to its compact sizes and the position of the extraction unit (allowing for deeper drawers).

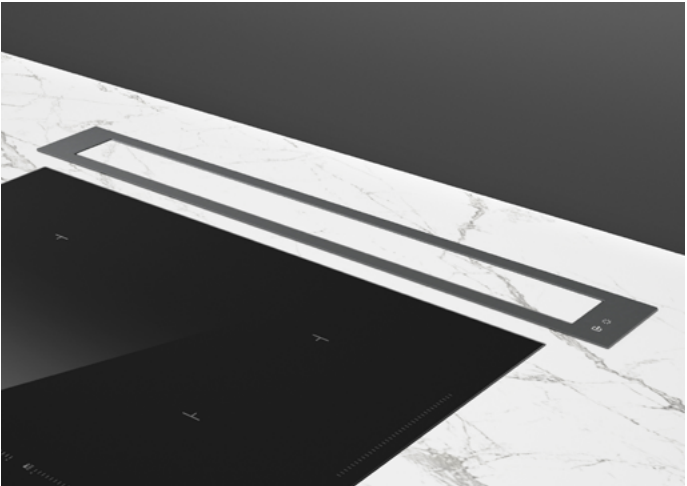

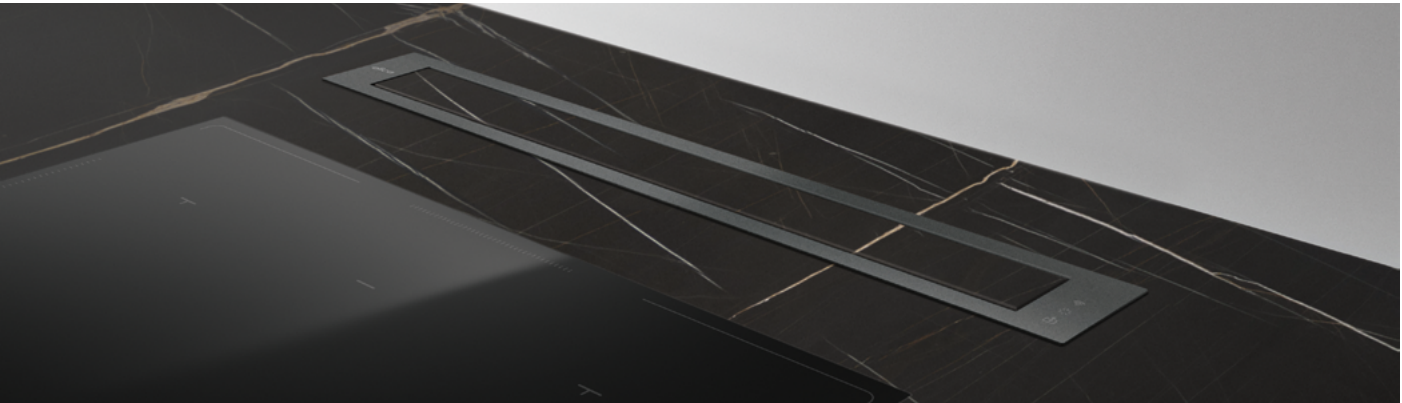

The motor can be mounted on board and on both sides of the appliance, and the air outlet can be rotated in all four directions. The extraction unit can be installed remotely (up to 3 m away), thus freeing up space inside the kitchen unit while ensuring efficient performance and whisper-silent operation.

Soluzioni originali.

I materiali rappresentano per Elica un elemento fondamentale del processo di innovazione. La finitura nera di Getup viene interpretata con una combinazione di vetro nero e particolari in vernice soft touch, mentre la classica soluzione in acciaio rivela un’eleganza senza tempo. La versione ‘effetto ghisa’ rappresenta una vera novità: sottolineata da un profilo in titanio, la finitura brillante si sposa con i nuovi stili della cucina e con gli elementi estetici dei piani a gas. Il modello ‘naked’ consente di rivestire il pannello superiore con qualsiasi texture, anche la stessa del piano di lavoro, rendendo Getup un prodotto estremamente personalizzabile.

Original solutions.

Here at Elica, materials are the cornerstones in our path to innovation. The black finish of Getup is the result of a combination of black glass and soft-touch paint details, while the classic steel version reveals its timeless elegance. The 'cast iron effect' model is a true novelty: its shiny finish enhanced by a titanium profile perfectly matches modern kitchen styles and the aesthetic elements of gas hobs. The 'naked' model allows the top panel to be covered with any type of texture (even the same as the worktop), thus making Getup a highly customisable product.

KIT0161457 Ø150×240 mm	Per evitare la creazione di condensa e il ritorno della stessa verso la fonte di espulsione dell'aria, consigliamo di installare questo componente lungo la condotta di uscita, facendo attenzione di posizionarlo in orizzontale per assicurarne un corretto funzionamento. Nel caso di gruppo motore remoto INLINE l'accessorio deve essere installato dopo il motore stesso. To avoid the formation of condensation and the flowback towards the source of air output, we advise installing this component along the outlet pipe, taking care to position it horizontally to ensure correct operation. The accessory must be installed on the motor if there is an INLINE remote motor unit.
